

HENLEY BANK HIGH SCHOOL

8th January 2021

Dear parents and carers,

Re: Years 7,8 and 9 Online Curriculum

I would like to start you by thanking you for all your support with the student's home learning. I am writing to you to inform of some changes that we are making to the way that we set year 7,8 and 9 online work and how this will allow us to further support students when they learn remotely.

From Monday 18th January all students in years 7, 8 and 9 will be following the timetable below. The timetable the students receive next week will be similar but with some minor alterations. The work will be sent to the student's school email every day by Miss Bradbury. Students will receive 7 lessons a day as well as a tutor time reading video, to ensure that they receive a full and enriching curriculum. The 7 lessons and tutor time reading, will equate to at least 5 hours of school work every day. We are also introducing higher and foundation lessons to maths and science, to ensure that students are being set work that is targeted at their ability. From next week, students will also be set weekly homework tasks on Seneca, Educake and Hegarty Maths.

To further support the students with their work we are introducing 'Henley Bank helpdesks'. This will be a subject teacher that can be contacted between the hours of 9am and 3pm, to answer questions and provide support to the students. I have attached all of the contact details for the helpdesk teachers at the foot of this letter. If students have any questions about the work or would like the work they have completed checked they should contact this teacher. There are also blank exercise books and stationary which can be collected from the front of school if any are required by the students.

If you have any further questions about the year 7, 8 or 9 remote curriculum, please do not hesitate to contact one of the staff members below:
