

English: Year 10

Overview

In KS4, English homework tasks are predominantly set through Seneca, with the average length of task being approximately 1 hour.

Y10 revision tasks are set Tuesday morning, and due at 7am on the day of the deadline.

Each task consists of sub-tasks and all of tasks must be completed to 80% correct or more. Tasks can be repeated as many times as necessary to achieve 80%.

How to access and complete the homework

The simplest way to log into Seneca is **to log into the student's school Google account** where the English teacher will have put a post up with a link to the Seneca task. There is a Seneca button on the homepage which logs students in automatically.

Students can also visit <https://senecalearning.com/en-GB/> and log in in using their **school email address and password**. If students have forgotten their password they can also click 'forgot my password' and a password reset email will be sent to their school email.

Students can also click the link sent to their school email every week or on their Google Classrooms account.

Parents can also set up a parent account and link it to a student account to monitor their progress. To do this visit: <https://senecalearning.com/en-GB/parents>

There may be occasions when we use resources other than Seneca as revision tasks, such as Google Forms where students will input answers. Google Classroom will have all the homework instructions each week. To access Google Classrooms, students use their school email address and password.

Consequently, rather than relying on Seneca for accessing homework, it is advisable for students to simply check their own relevant Google Classroom each week, where all homework tasks will be set and updated, along with any other relevant communication from the teacher.

For access, go to <https://edu.google.com/workspace-for-education/classroom/>

What to do if a student forgets their login?

If a student forgets their login information:

1. If a student has forgotten their password, click the 'Forgotten password' option on the login page- student will need to access emails to then follow instructions from Seneca to reset password. This will then guide the student through resetting the password- the password is then set through Seneca and if forgotten again will need to be reset through Seneca.

For further assistance, including login issues, accessibility, or use of Google Classrooms/Seneca, contact:
